

# \$MYRO WHITEPAPER

## *The Solana Dog*

### **The Origin**

What is Myro?

Myro is named after the dog owned by Raj Gokal, one of Solana's co-founders. This project was born to p

Beyond being a tribute, Myro aims to provide real value to the Solana ecosystem—a blockchain establish

### **The Vision**

Myro isn't just a memecoin. While memecoins often outperform traditional crypto assets, they're frequentl

- Making crypto approachable for everyday consumers.
- Encouraging institutions to participate in the crypto space.
- Driving demand across different sectors of the crypto market.

Myro's vision is to serve as a gateway to attract new consumers, institutions, and multi-chain enthusiasts

### **The Utility**

Despite being a memecoin, \$MYRO balances fun and functionality. It introduces MYRONOMICS, a frame

- The MyroBot is the first public BuyBot on Solana, offering exposure to trending projects.
- Projects can achieve free or paid trending status and purchase ads for added visibility.
- All revenue is directed to the 'Treat Jar' treasury, promoting transparency and trust.

### **Join the Movement**
